Materials and information provided in this presentation may contain 'forward-looking statements'. These statements are based on current expectations, forecasts and assumptions that are subject to risks and uncertainties which could cause actual outcomes and results to differ materially from these statements.

Risks and uncertainties include general industry and market conditions, and general domestic & international economic conditions such as interest rate and currency exchange fluctuations. Risks and uncertainties particularly apply with respect to product-related forward-looking statements. Product risks and uncertainties include, but are not limited, to technological advances and patents attained by competitors, challenges inherent in new product development, including completion of product trials; claims and concerns about product safety and efficacy; obtaining regulatory approvals; domestic and foreign apparel industry reforms; industry trends, and governmental laws and regulations affecting domestic and foreign operations.

Also, for products that are approved, there are manufacturing and marketing risks and uncertainties, which include, but are not limited, to inability to build production capacity to meet demand, unavailability of raw materials, and failure to gain market acceptance.

The Company undertakes no obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

COMPANY OVERVIEW

Suryalakshmi Cotton Mills Limited

VERTICALLY INTEGRATED ODM*

INDIA'S PREMIER ODM
among the
TOP 5 PLAYERS

Estd. in 1962 by
Shri L N AGARWAL
to manufacture cotton
yarn

INTEGRATED PLAYER
across the
DENIM VALUE CHAIN

Led by
Shri L N AGARWAL
(Chairman)
**Shri PARITOSH
AGARWAL**
(Managing Director)

**LONG-TERM
RELATIONSHIPS**
with **GLOBAL & INDIAN
BRANDS**

Headquartered in
SECUNDERABAD
(Telangana)
Spinning units : Amravati, Maharashtra
Amanagallu, Telangana
Fabric mfg.: Ramtek, Maharashtra
Power unit: Ramtek, Maharashtra
Garment mfg.: Hyderabad, Telangana

* ORIGINAL DENIM MANUFACTURER

VERTICALLY INTEGRATED MANUFACTURING

1

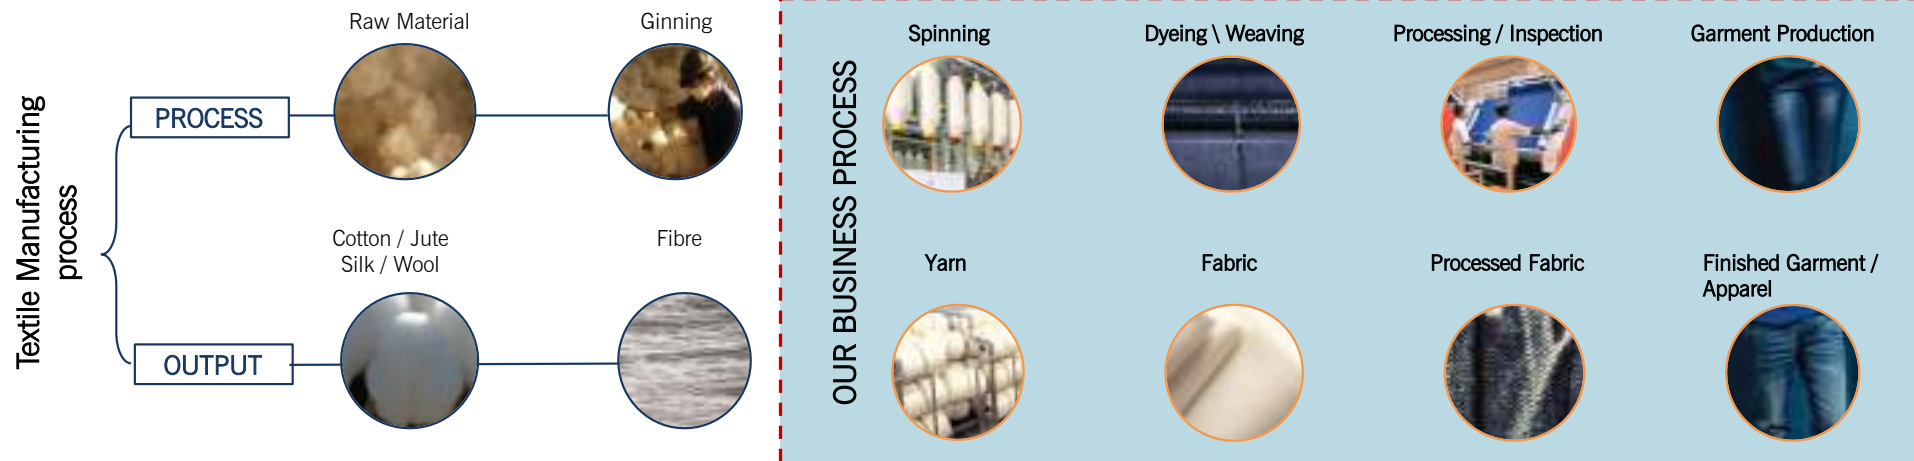

Integration to rise up the value chain

2

Controlling all aspects of manufacturing from yarn to finished garments

3

Reverse engineering for product enhancement

STRONG PILLARS OF GROWTH

ALIGNING WITH BRANDS

- ODM to key denim brands
- Partnering across denim yarn + cloth + garments
- Riding India's consumption story & supplying to international denim players

VERTICAL INTEGRATION

- Integration across the entire value chain
- Deriving quality and efficiencies from integrated operations
- Smart product mix driving higher per unit economics

R&D-led PREMIUM DENIMS

- New R&D-led launches to ensure higher premium – smart denims
- R&D focus on key areas of comfort wear, lightweight wear and value addition
- Close collaboration with merchandising teams of brands

CHARTING STRATEGIC GROWTH ALIGNED WITH MARKET DEMANDS

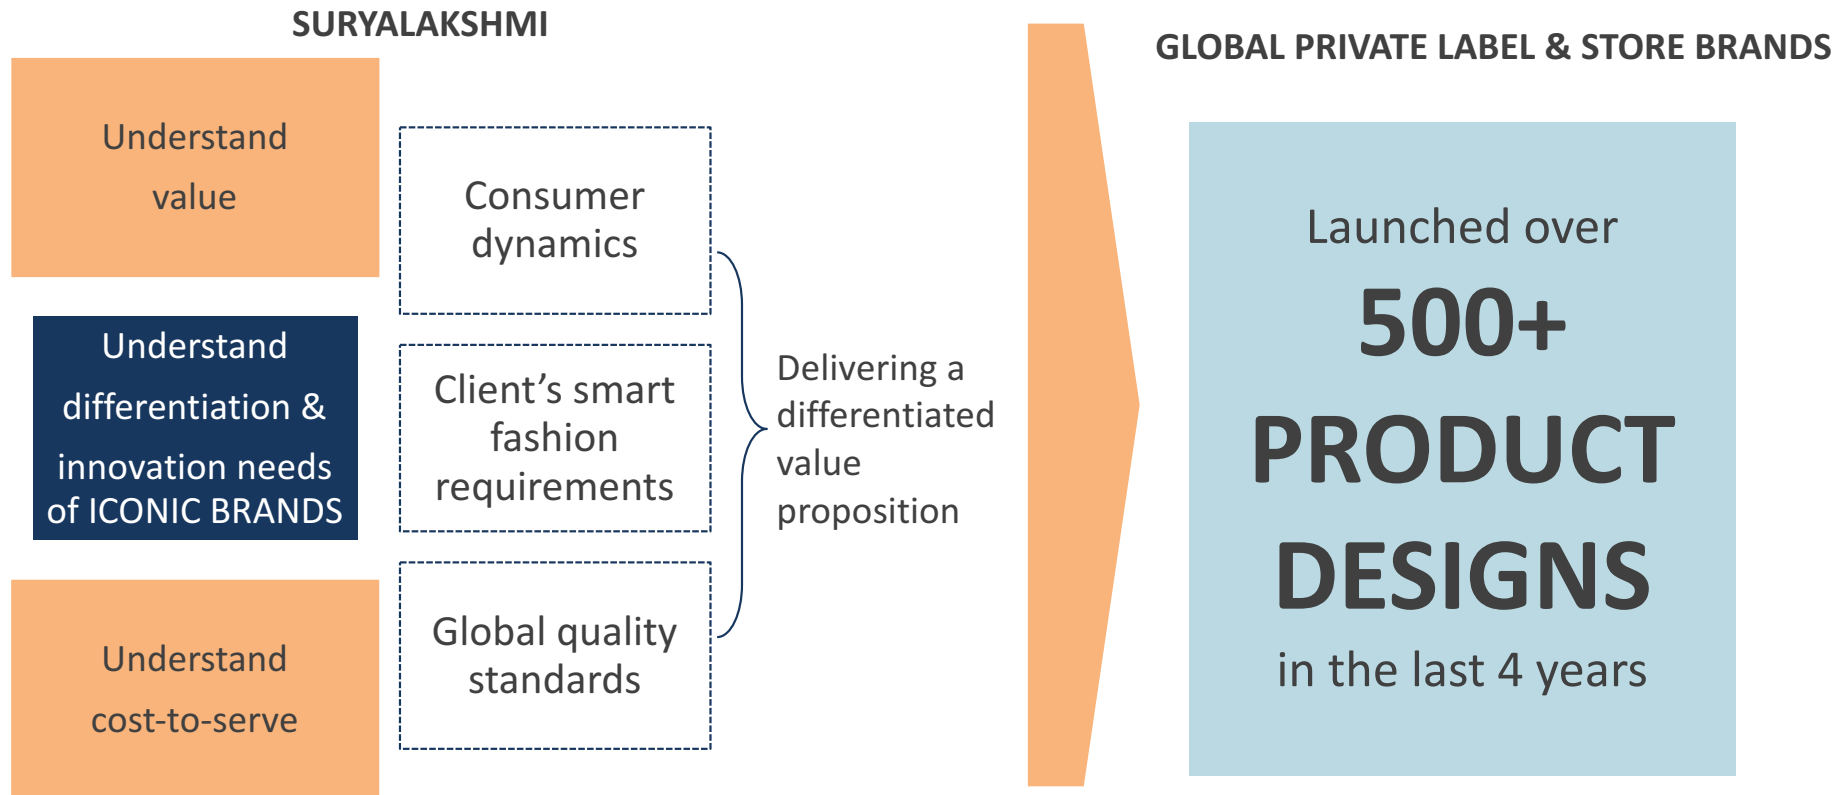

Rising up the value chain through backward & forward integration

Year	Milestone	Focus	Turnover in Cr.
2016	<ul style="list-style-type: none"> Established Fancy yarn manufacturing unit with a capacity of 25,000 spindles at Amravati, Maharashtra 	Backward and Forward Integration in Denim Manufacturing	760
2013	<ul style="list-style-type: none"> Captive power plant setup in Ramtek, Maharashtra Catering to the captive requirements of the Company's denim division after meeting auxiliary requirements 		705
2010	<ul style="list-style-type: none"> Spinning Capacity increased to 61,008 spindles 		224
2006	<ul style="list-style-type: none"> Forayed into new geographies – Israel, Tunisia, Russia, Columbia etc. Set up Denim garment manufacturing unit with capacity of 5,000 pieces/ day Denim plant Capacity expanded to 40 million meters p.a. 	Denim Fabric Manufacturing	246
2005	<ul style="list-style-type: none"> Denim plant capacity expanded to 30 million meters Demerger of company's Mahabubnagar unit and dyeing plant Post demerger, Spinning Capacity increased to 48,000 spindles by adding 25,000 spindles at Amanagallu, Andhra Pradesh 		118
1998	<ul style="list-style-type: none"> Denim plant capacity expanded to 20 million meters p.a. 		111
1997	<ul style="list-style-type: none"> Diversified into denim manufacturing with a capacity of 10 million meters p.a. Set up First phase of denim project at Ramtek, Maharashtra 	Fibre Production	
1987	<ul style="list-style-type: none"> A 100% export-oriented spinning mill set up at Andhra Pradesh The company exported its products to highly quality-conscious markets like Spain and Belgium and established its presence in Bangladesh and Korea 		
1970	<ul style="list-style-type: none"> Diversification into polyester manufacturing 		
1962	<ul style="list-style-type: none"> SCML established to manufacture world-class cotton and blended yarn with a capacity of 6,000 spindles 		

A BUSINESS ALIGNED WITH BRANDS

Partnering **Top 20 global fashion and retail brands** as a private label outsourced manufacturing partner

REVENUE ENHANCEMENT + FISCAL PRUDENCE

INDUSTRY OVERVIEW

Suryalakshmi Cotton Mills Limited

EVOLUTION OF DENIM IN INDIA

GROWING PREFERENCE OF DENIM AS WORKWEAR

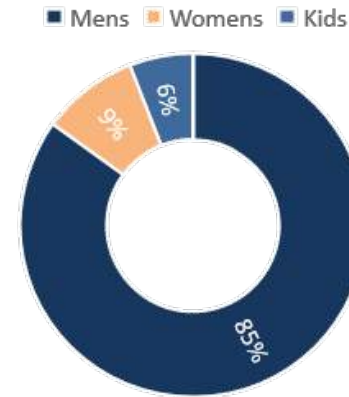

GROWTH OPPORTUNITY

Per capita consumption

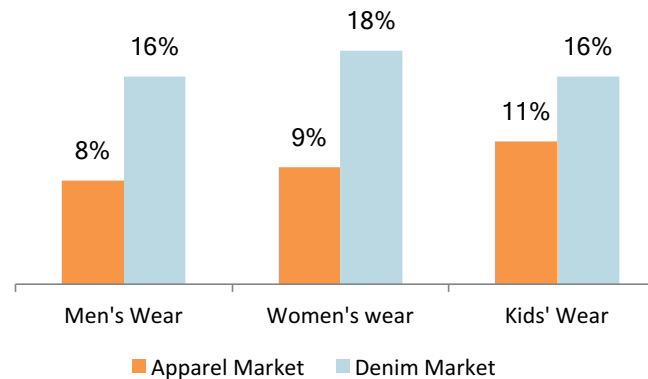

DENIM MARKET SPLIT

- Market skewed towards the men's segment
- Women's and kid's segments expected to witness very high growth rates

Domestic Apparel Market v/s Denim Market Estimated CAGR - (2011-2021)*

*Technopak Compendium Textile Apparel

DENIM ECONOMY – WITNESSING EXPLOSIVE GROWTH

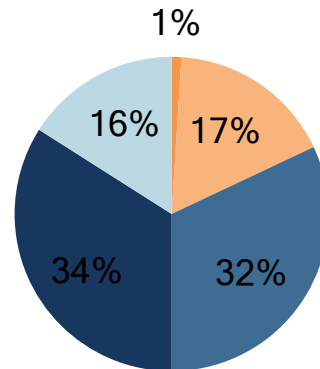

Global denim market
USD 55 BILLION

Pairs sold annually
1.9 BILLION

Denim appeal
YOUNG AND AFFLUENT IN INDIA, CHINA & DEVELOPING COUNTRIES

Segment-wise sales of denim brands (as per value)

- Super Premium (> Rs. 3,500)
- Premium (Rs. 2,000 - Rs. 3,500)
- Medium (Rs. 1,000 - Rs. 2,000)
- Economy (Rs. 500 - Rs. 1,000)
- Low (> Rs. 500)

India Denim Market Overview#

- Indian Denim Market to witness a whopping 15% CAGR
- Premium players to garner a larger share of the growing pie

DENIM ECONOMY – GROWTH IN INDIA

1

Jeans category growing in India at a **CAGR of 15%** while the global market is growing at 3-5%

2

By 2023, India will be a **Rs. 54,600 crore** market*.

Indian market is perennially in discount mode – **MYTH** ✘

India has around **300 full price days**

US has only **155 full price days**

% of products sold at full prices is much higher in India – **65%**

DENIM ECONOMY – THE EXPORT OPPORTUNITY

Global denim market
USD 64 BILLION
 BY 2020

Indian manufacturing capacity
 p.a. to increase from
1.2 to 1.5 MTR.
BILLION BY 2020

Utilization rates
80-85%
 Domestic consumption to
 export ratio set of to change
 from
65:35 to 55:45

India – An emerging denim export hub

The key to the future

Need for technological integration

Quality + Technology +
 Affordability

Product Intelligence

Capacity build-up +
 manufacturing quality

DENIM ECONOMY – THE GROWTH DRIVERS

According to industry analysts, denim is the preferred segment in the Indian textile industry with potential to grow manifold

KEY DRIVERS

1

Mid-value segment driving high growth

2

Consumer preference for stretch-fit

3

Expansion of large manufacturers

4

Emergence of new, smaller and funky designers

5

Demand for enhanced product attributes

Fashion quotient

Stretch

Lightweight fabric

Styling

Detailing

OUR STRATEGY

Suryalakshmi Cotton Mills Limited

EXPANSION STRATEGY – 2V THEORY (Vol + Value)

Yarn Spinning

COMMISSIONED NEW SPINNING UNIT (25,344 spindles) at Amravati Textile Park, Maharashtra

- Value-added fancy yarns such as ring, eli twist, slub and compact
- State-of-the-art machines
- Yarn for internal consumption + domestic demand + exports
- Tax savings and subsidies both from Maharashtra and Central Government

Increased capacity focused on **HIGH VALUE** yarns to **86,352 spindles** from **61,008 spindles** in FY15-16

Denim Manufacturing

INCREASE DENIM FABRIC SALES through VALUE-ADDS + NEW PRODUCTS

- Tap huge customer base across key markets – same customers, premium products
- Strong network of associates for US & EU markets
- Opened a market consultancy for Europe

Plans to **increase capacity by 50%** from **40 million mtr.** to **60 million mtr.**

Denim Garments Manufacturing

AMALGAMATION with our 100% subsidiary Suryakiran Mills

- Utilize denim fabric from Suryalakshmi plants to make denim garments
- Improve overall margins & work with premium denim brands

Plan to enhance garment production to **15,000 pieces** from **5,000 pieces per day**

Focus on producing high-margin products and reducing share of low-margin ones.

EXPANSION STRATEGY – 2V THEORY (Vol + Value)

Changing Revenue Mix

Investments in High Value Items

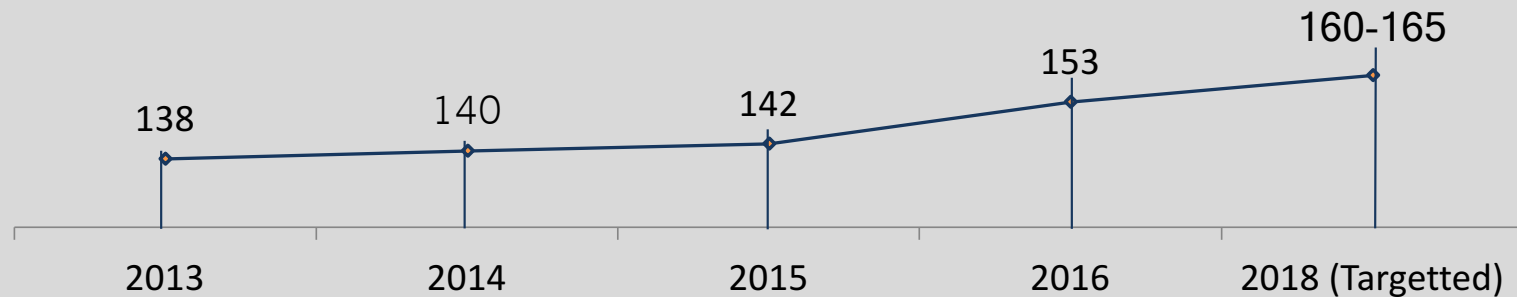

Capacities with High Value Margins

Increased Export Volumes – Changing Revenue Mix

Increased Value - Sales Realization per Meter

* Direct and deemed exports

Advantage India

- Raw material availability
- Skilled manpower
- Low cost of production
- Burgeoning middle-class with a rapidly expanding purchasing power
- Adoption of global technologies and manufacturing know-how
- Adherence to global standards of safety and environment compliance
- Presence across the textile value chain (cotton production – fibre production – yarn manufacturing – fabric manufacturing – garment manufacturing)
- Investments in best-in-class infrastructure + Government support for continuous upgradation (TUF scheme)
- Evolving fashion sense and product intelligence to compete in global markets
